

Interviewers: Sebi Samuel and Siddhesh Shimpukade

Interviewee: Shriharsha Vaidhyam

Note Taker: Vishruth Reddy

Interviewers: Hello, I'm Semi Samuel and this is my fellow interviewer Siddhesh Shimpukade. Thanks for taking the time off your busy schedule to speak with us today.

Interviewee: Thank you Sebi and Siddhesh!

Interviewers: I'm sure you're very familiar with this Handshake Web Application. Can you tell us about your general experience using this application.

Interviewee: Sure, Handshake is a great place to network with the employers and to connect with them.

Interviewers: Is there anything that you feel is not up to the mark? Do you think this application needs any improvements?

Interviewee: There needs to be an option to change the font size.

Interviewers: That's interesting coz we didn't think of this. But do you think this is an actual hindrance or will the application work just fine even without these additions that you mentioned?

Interviewee: I think the application will run fine

Interviewers: Now that you've covered the part that needs improvement. What is something that you like about this application and that you feel this application stands out as compared to its competitors like LinkedIn, Indeed etc

Interviewee: I believe handshake has a simple design.
I really like the font size, it is unconventional but really unique.
Each section has enough space and there is enough white space which highlights the important stuff

Interviewers: That's good to hear. Apart from the positive and negative features about the app, do you feel Handshake needs any additions. What are your typical needs when you use Handshake and you feel is missing in this app?

Interviewee: Handshake should limit automated responses.

Interviewers: That's an interesting find and definitely Handshake needs to incorporate it. We have one final question, how does Handshake help you achieve

your goals. Do you feel comfortable using this application and would you suggest this to your peers?

Interviewee: Absolutely, handshake is a great platform for students. I would definitely recommend this to everyone.

Interviewers: Thank you for sharing your experience with us, Shriharsha. Your feedback will be helpful as we work to improve our use of Handshake.

Note Takers: Thank you, Shriharsha. We appreciate your time and insights.
