

# Interactive System Design - Prototyping lab

03/02/2022

## Team Members:

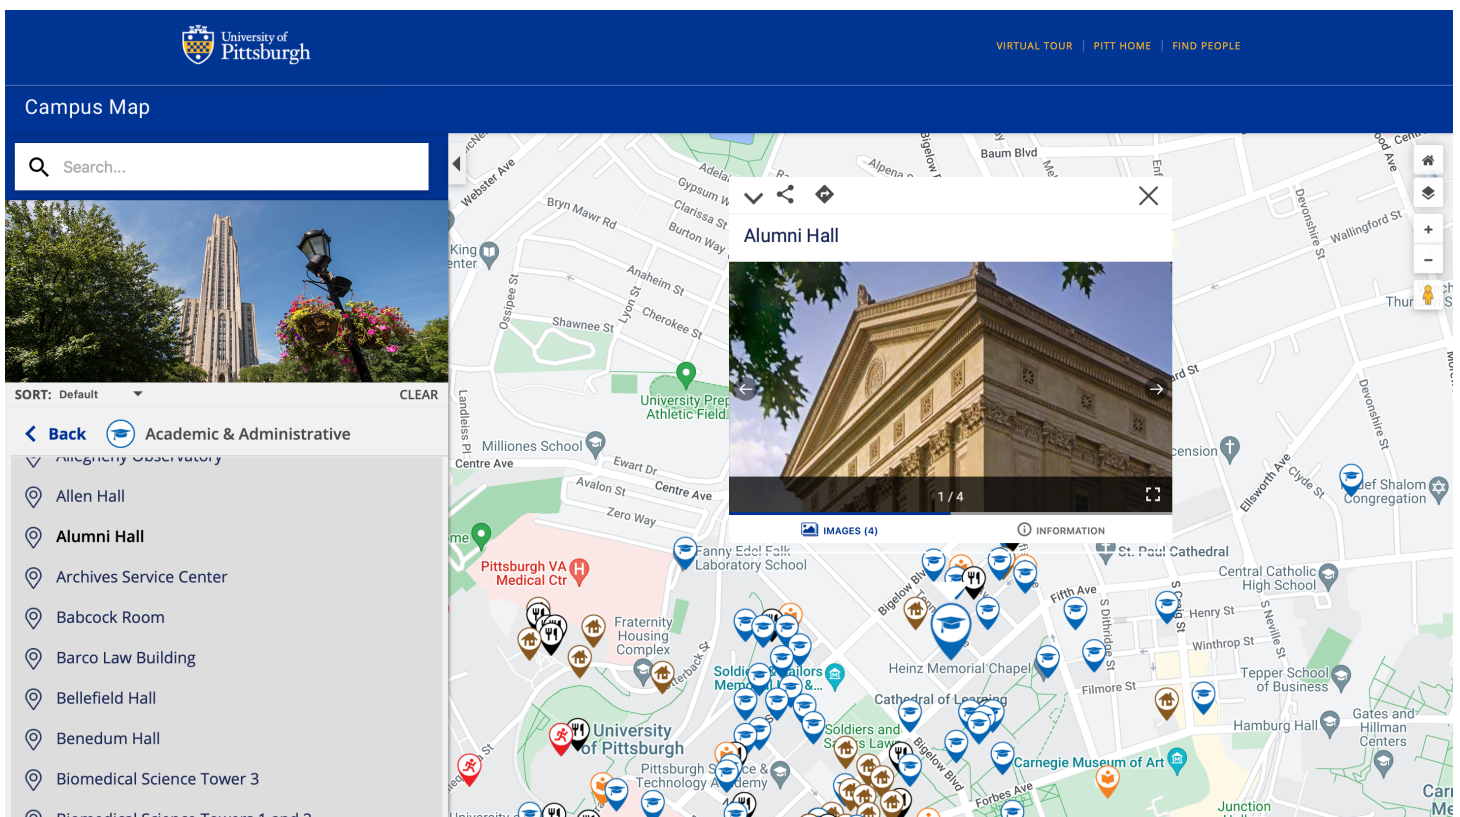

Vishruth Reddy - [vpr8@pitt.edu](mailto:vpr8@pitt.edu)

Nihal Desai – [nid91@pitt.edu](mailto:nid91@pitt.edu)

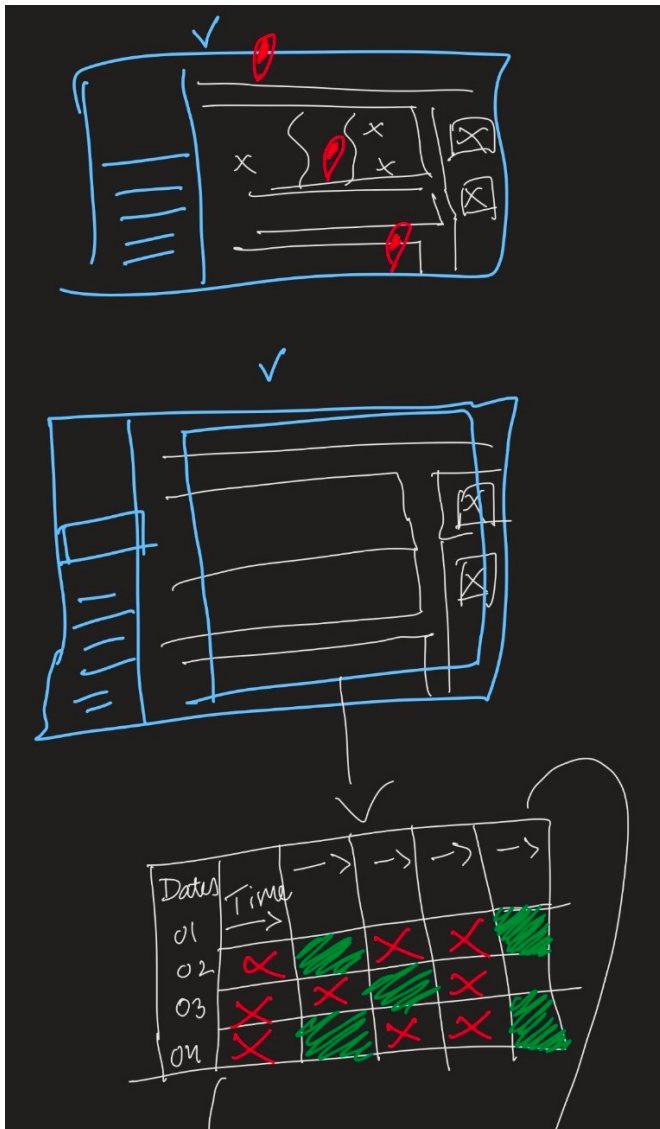

**Task** – Booking a space to play or book a space for some activity across campus using the [tour.pitt.edu](http://tour.pitt.edu) website. Where you can look at the space or have a birds eye view of the campus and various locations and book a space as needed.

**Website** - <https://www.tour.pitt.edu>

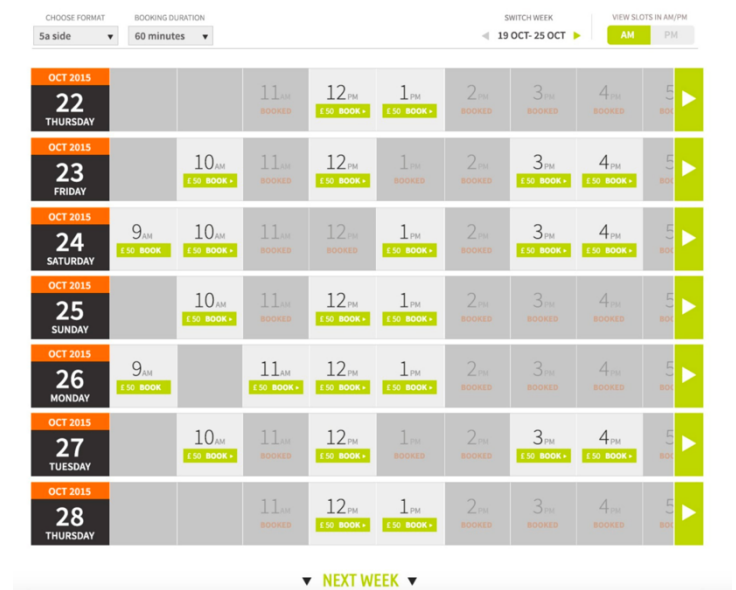

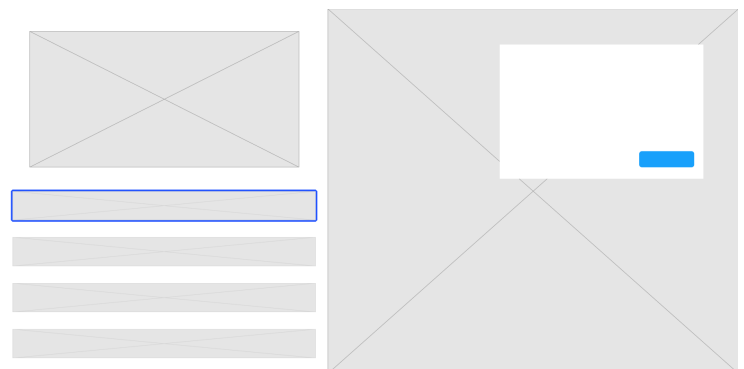

## Existing Design:

## Handmade Initial Prototype:

## Abstract Wireframe:

## State Diagram:

- Instead of having another site or need for extra development the same website can be used for the purpose of booking spaces across campus for various activities.
- This provides for a more optimal and user-friendly design where the users can see the space before booking and get a visual tour of the spaces.
